Flavor Profile	 Pear  Lemon/Lime  Red Apple	 Peach  Green Apple  Lemon/Lime  Mango	 Raspberry  Blueberry  Baking Spices  Black Cherry	 Red Cherry  Strawberry  Jam  Baking Spices
Oak Impact		 No Oak		

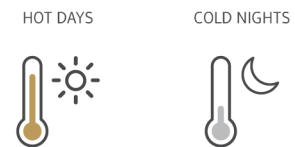

## Growing Region\*

**Location** Eastern Washington's growing region has a continental climate on the same latitude as France

**Sunshine** Up to 16 hours of sunshine at the peak of summer and a mere 6"-8" of rainfall provides ideal ripening conditions

**Temperature** A high diurnal temperature shift creates wines with greater fruit intensity and higher acidity

\*The growing conditions included are for informational purposes only and may not relate to the wines shown above.
